SOLUTION DESCRIPTION

PRODUCT DESCRIPTION

The BrainLit ASTRID is a dynamic LED pendant that combines independently controlled task and general lighting. Placement and direction of emission allows for very high luminous flux (4200lm) without causing eye discomfort. At the same time it is conveniently placed in any ceiling type. By dynamically adjusting its color temperature anywhere between ice blue white (6500K) to warm white (2700K), up- and down-light independently, you can transform the ambiance of a room and promote the circadian alignment. The BrainLit ASTRID pendant embraces the black body curve with exceptional color rendering, while dimming smoothly down to 0.1%.
